### Current Global Affair: Titan Submersible Implosion

On Saturday the 18th of June, Ocean Gates submersible, 'Titan' imploded whilst on an expedition to the Titanic's wreckage site. The 5 men on board included Stockton Rush (CEO of Ocean Gate), British-Pakistani businessman Shahzada Dawood (48), his son Suleman (19), British businessman Hamish Harding (58) and Paul-Henri Nargeolet (77), a former French navy diver and renowned explorer. The US Navy reported to have lost contact with the submersible only 1 hour and 45 minutes after its dive. An extensive search mission began, and soon after 5 major pieces of debris (including the main body of its hull) were found around 500 metres from the Titanic. An investigation into this matter will continue, as many continue to mourn this tragic incident that took place.

## The Big Sister Programme

At the Big Sister Programme Juhaymah, Hania, Nilofar, Alero, Gabriella, Fateha and Rose spoke to 5 students about problems with friendships in which we gave them advice on how to deal and cope with their situations.

The environment was very comfortable as the students expressed their feelings openly and honestly. Three other students had originally come to help out with the programme, however we spoke to them about their GCSE options and what they should take based on what their main interests are.

The students expressed their feelings about the teachers in the school, their teaching methods and more. It was a very light hearted and friendly environment, the students were polite and responsive to us. We, as a group, enjoyed our first session with the younger students as it gave us an insight into what their concerns are about the school and how we can help them with their own personal issues as well as transitioning to upper school.

## Film Reviews

- 'Spider-Man: Across the Spider-Verse'  
After being the one and only Spiderman in his multiverse, Miles Morales soon finds his obligation to the safety of Brooklyn, whilst maintaining his own personal life, to be challenging and exhausting. These problems for him do not come to an end as every hero must have a villain and Morales is no exception. Through the pressure to be the perfect son to his parents and also the guardian of his home town, Morales cannot help but think about his friends scattered throughout the multiverse who could offer him comfort and warmth, when the one he longed to see most pays him an unexpected visit. Life for Miles after this rekindling does not remain the same as he is unveiled to the Spider-Society he has been yearning for. Eager and elated to finally be a part of his community he uncovers the betraying truth behind his existence and the price each Spiderman must pay as a result of being a hero. Desperate to escape this tragic reality he finds himself entangled in more urgent matters as his villain runs loose, wreaking havoc on all multiverses and threatening their very existence. He soon realises that the multiverse is not at all what he imagined as he finds himself trapped in a twisted and inescapable version of his very own world.

- 'The Little Mermaid'  
Based on Disney's original 'The Little Mermaid', the 2023 live action remake is packed with romance, sacrifice, and self-discovery, starring Halle Bailey, who plays the beloved character Ariel. With her angelic but powerful voice she not only captivated the audience but also portrayed the ethereal beauty and curiosity of Ariel's personality. Not only was the film bursting with vibrant colours and breath-taking visuals, it also illustrated great tension and chemistry between Ariel and Prince Eric.
